Geologic maps – scale 1:1,200 to 1:34,000 – This map shows all 169 maps in this scale range, and
11 maps with an unknown (present) scale in the North Carolina database as of June 2009.

Geologic maps – scale 1:900,000 to 1:3,000,000 – This map shows selected maps in this scale range,
overlayed with an index grid of 13 total georeferenced maps as of June 2009.

Geologic maps – scale 1:31,680 to 1:430,000 – This map shows selected maps in this scale range,
overlayed with an index grid of 91 total georeferenced maps as of June 2006.

Topographic maps – This map shows legacy topographic maps as of June 2006.
