

DIGITAL MAPPING TECHNIQUES 2023

The following was presented at DMT'23

May 21 - 24, 2023

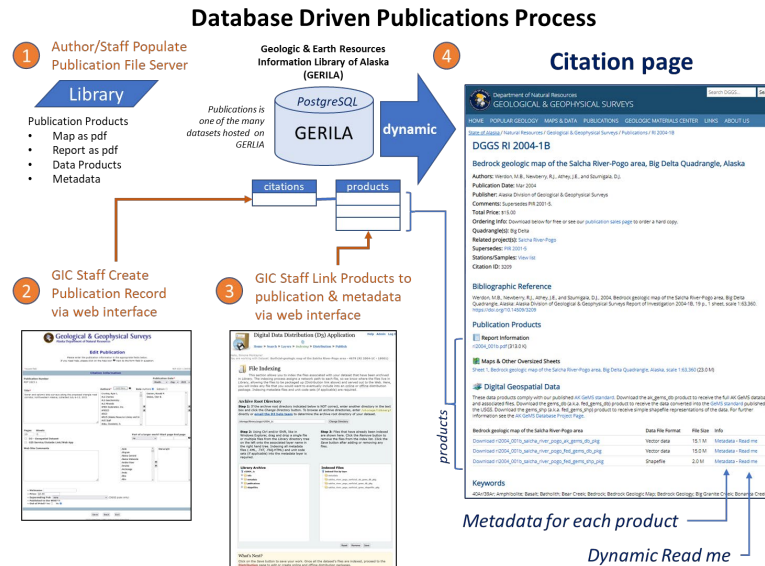

The contents of this document are provisional

The Publication and Distribution Process at Alaska DGGS

DMT 2023
21-24 May 2023

Mike Hendricks, Simone Montayne, Sue Seitz, Kristen Janssen

Alaska Division of Geological & Geophysical Surveys

3354 College Rd, Fairbanks AK 99709

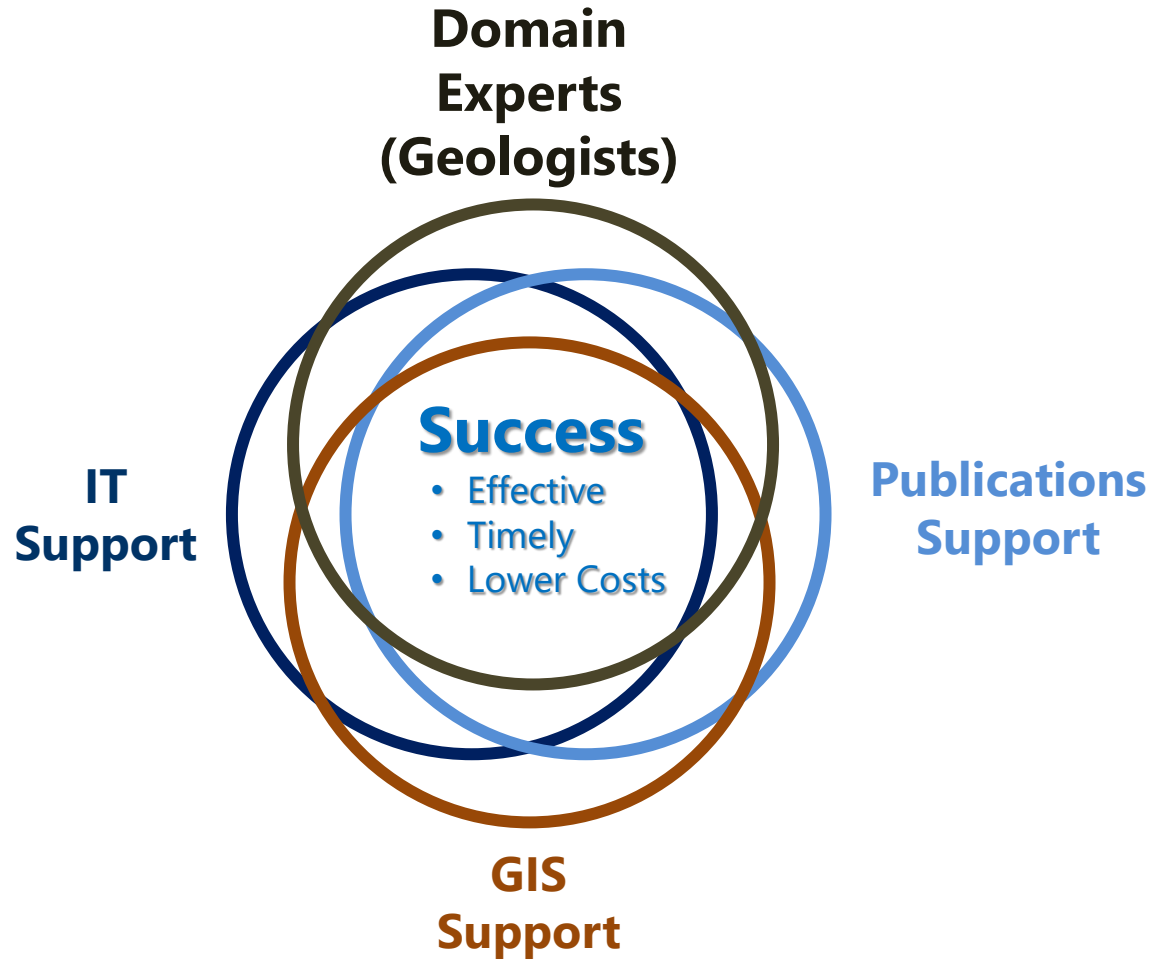

Agenda

- Geologic Information Center (GIC)
- AK DGGS Publication Preparation & Approval Process
- AK GeMS & GeMS Data Additional Steps
- Centralized Metadata Creation
- Database Driven Publications Process

AK GeMS Geologic Mapping System

Integrated Team Is Essential!

- **Dedicated and Embedded IT support** at the Division Level is Absolutely Critical
- **Regularly scheduled coordination meetings:**
 - Weekly GEDI meetings (Geologic Data Inquiry)
 - Bi-weekly Division Publications Meetings
 - Weekly GeMS Multimaps Meetings
 - Individual Product Production Status Meetings
 - Other Spin Off Meetings
- **Emphasis on Training:**
 - Weekly GIS Tips & Tricks
 - Illustrator sessions
 - ESRI Training emphasis
 - One-on-one training and support from IT, GIS, & Publications.

Geologic Information Center (GIC)

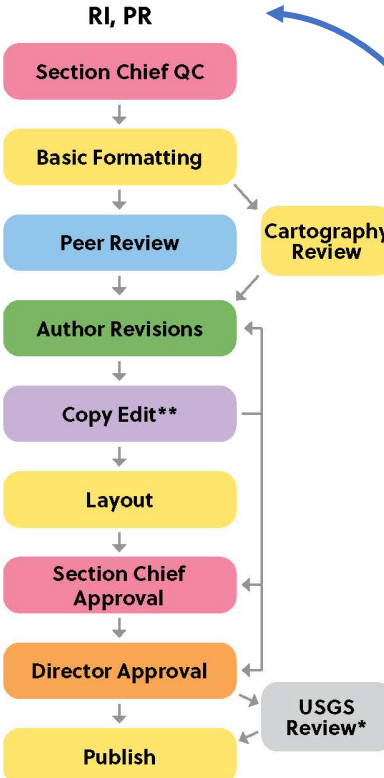

DGGS Publication Preparation & Approval Process for All Publications

Funding approval, fieldwork/collection, analyses, co-author collaboration

Managed by
GIC's (Geologic information Center)
Kristen Janssen

Fun Fact:
Also responsible for all the
Information Circulars
in your DMT Packet

*Types of Publications
Approval process
dependent on
publications type*

**Additional external copy editing may be done at any stage, for any publication series, at the discretion of the author and section chief.

*This step may include: Data design (Simone = metadata check, Mike/Andrew = GIS compatibility).

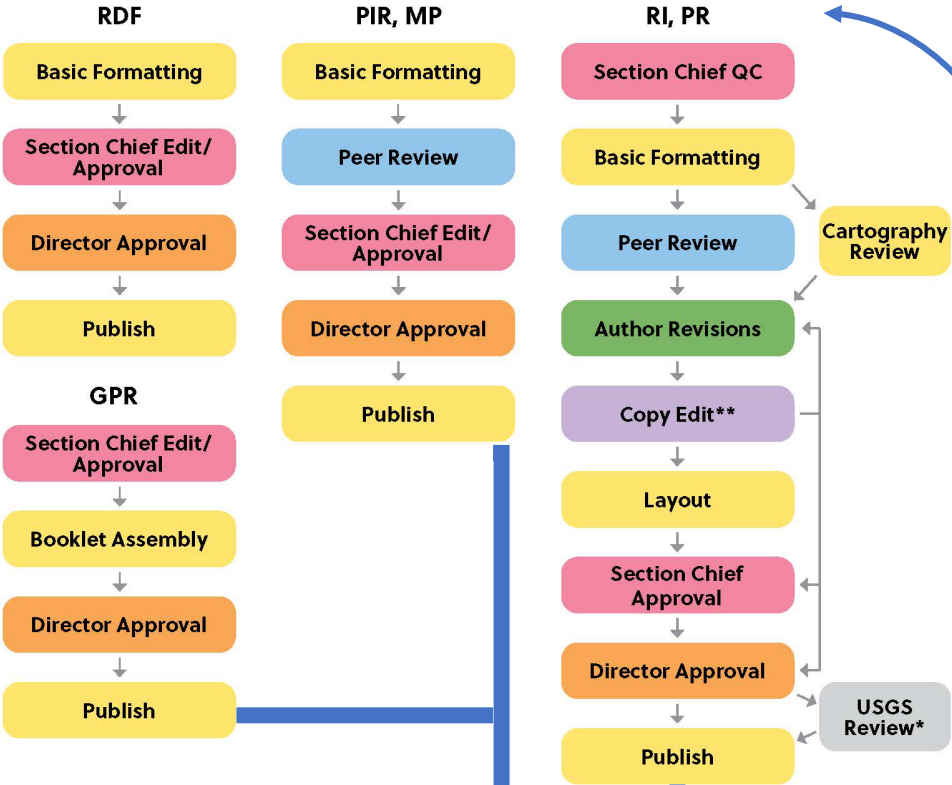

DGGS Publication Preparation & Approval Process for All Publications

Funding approval, fieldwork/collection, analyses, co-author collaboration

Fun Fact:
Also responsible for all the
Information Circulars
in your DMT Packet

Types of Publications
Approval process
dependent on
publications type

- Authors
- GIC
- Reviewers
- Section Chief
- Copy Editor
- Director

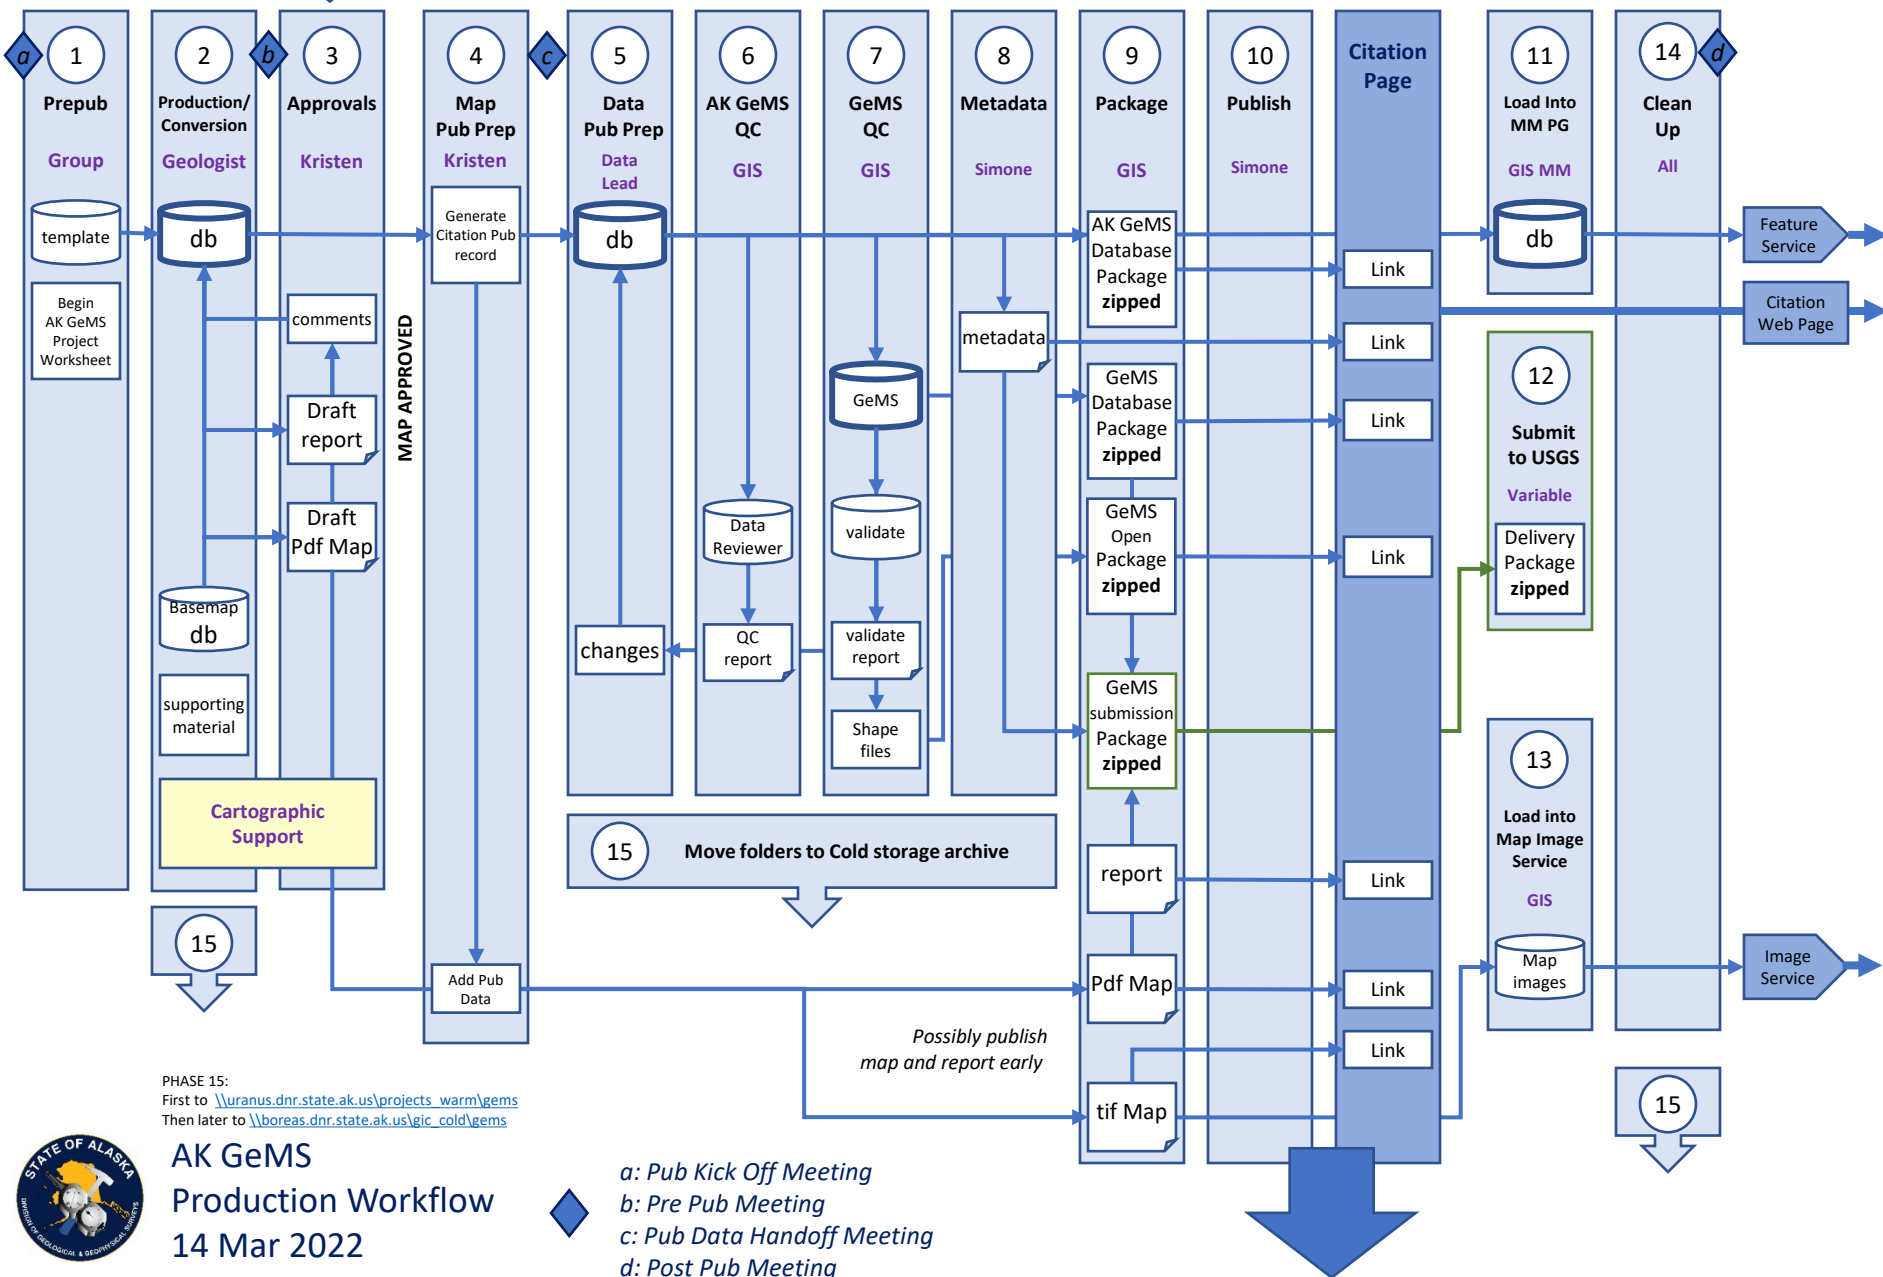

**Additional external copy editing may be done at any stage, for any publication series, at the discretion of the author and section chief.

*This step may include: Data design (Simone = metadata check, Mike/Andrew = GIS compatibility).

Well now what?

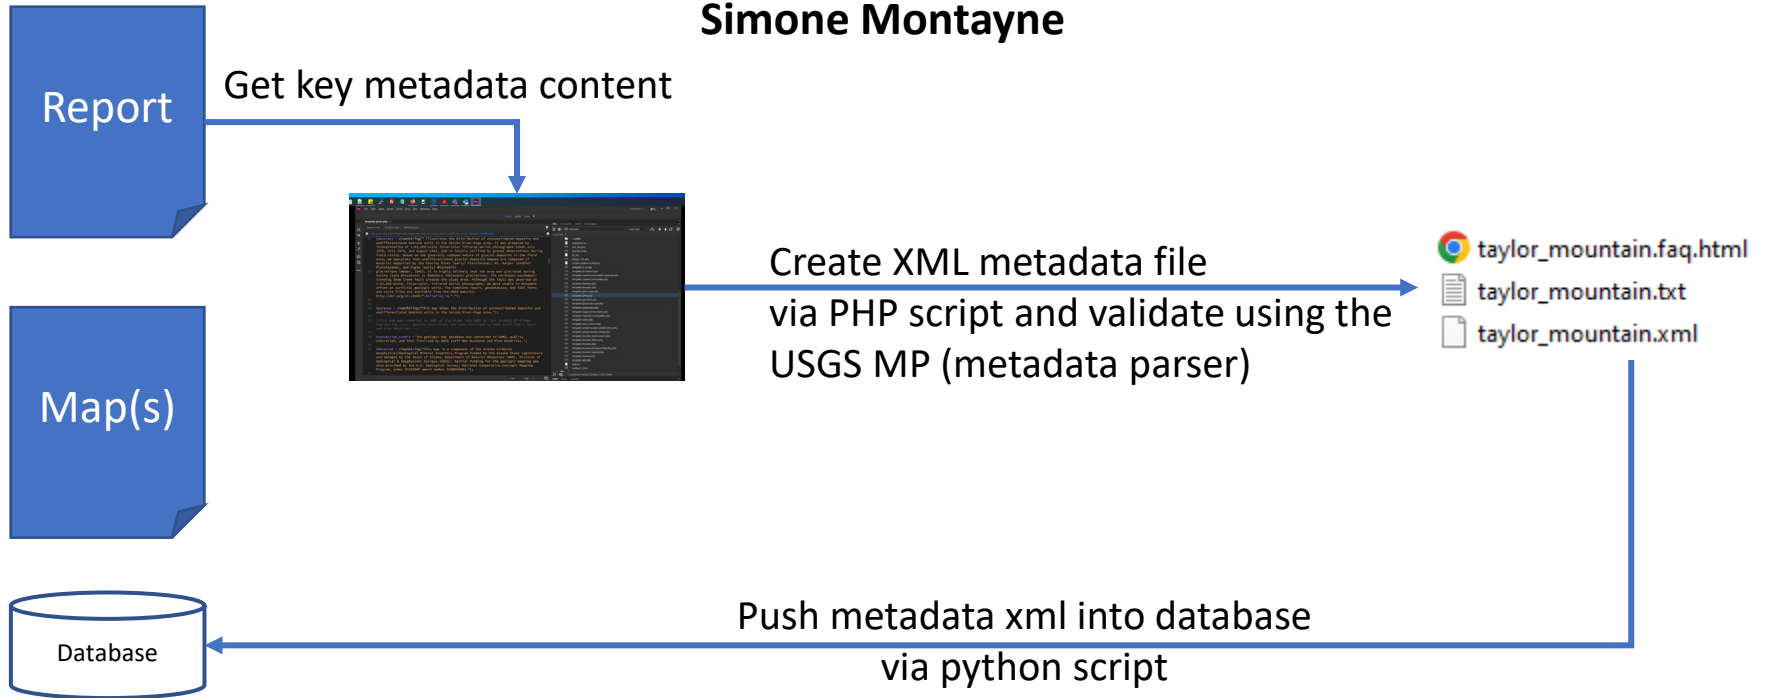

GeMS Databases have "a number" of Additional Steps

Centralized Metadata Creation

GIC's (Geologic information Center)

Simone Montayne

It's typically assumed that authors are best qualified to write metadata, which they are, but that causes publication delays because it also requires authors to fully understand the FGDC standard.

Our workflow ensures that authors capture key metadata in their reports and data products w/o burdening them with the need to tinker with an application or write XML.

Database Driven Publications Process

Managed by
GIC's (Geologic information Center)
Sue Seitz

1 Author/Staff populate publication file server

Geologic & Earth Resources
Information Library of Alaska
(GERILA)

5

Library

Typical Publication Products:

- Map as pdf
- Report as pdf
- Data Products
- Metadata

Publications is one of the many datasets hosted; others include:

- Stations
- Samples
- Map index

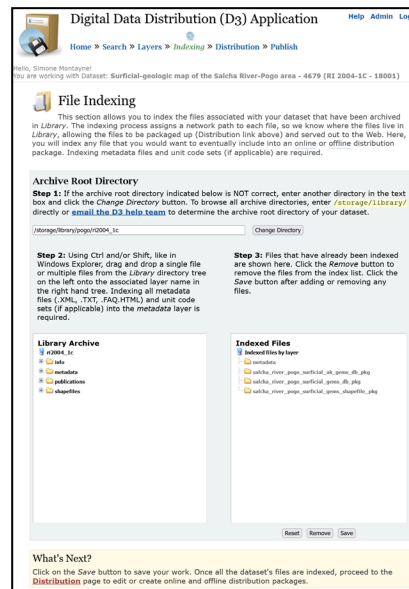

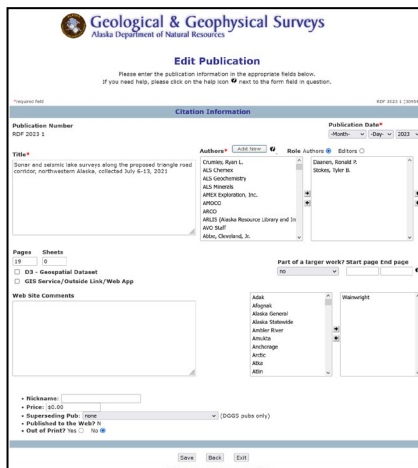

Metadata Creation

2 GIC Staff create publication record via Web Interface

3

4 GIC Staff link products to publication & metadata via Web Interface

DGGG RI 2004-1B

Bedrock geologic map of the Salcha River-Pogo area, Big Delta Quadrangle, Alaska

Authors: Werdon, M.B., Newberry, R.J., Athey, J.E., and Szumigala, D.J.
 Publication Date: Mar 2004
 Publisher: Alaska Division of Geological & Geophysical Surveys
 Comments: Supersedes PIR 2001-5.
 Total Price: \$15.00
 Ordering Info: Download below for free or see our [publication sales page](#) to order a hard copy.
 Quadrangle(s): Big Delta
 Related project(s): Salcha River-Pogo
 Supersedes: PIR 2001-5
 Stations/Samples: [View list](#)
 Citation ID: 3209
